

B&L LEAKPROOF DECK & SHOWER

Class III, low VOC, water borne membrane system for waterproofing under tile finishes.

B&L Leakproof Deck and Shower, available from APTC Australia, is a Class III, low VOC, waterborne membrane system designed for use under tile finishes.

It is a versatile two coat system that can be used in bathrooms, kitchens, laundries, as well as patio and balcony areas.

Quick drying and permanently flexible, B&L Leakproof Deck and Shower is easy to apply to most building substrates and materials whilst also meeting Australian Standards 4858:2004 (complying with AS3740) and AS4654 which is the latest external above ground standard.

B&L Leakproof Deck and Shower is fibre reinforced to promote adhesion and can be used under most quality tile adhesives.

Associated products:

- B&L Primmix Bond
- B&L Proflex
- B&L Leakproof Bandage.
- B&L Dampseal Moisture Barrier
- APTC Butyl Fleece
